Curiosity is a muscle—  
the more you exercise it,  
the stronger it gets.

Aleta Margolis,  
p. 36

Meaningful inquiry unfolds  
through distinct phases — yet most  
projects skip straight to “pick your topic”  
before students have had time  
to explore what genuinely  
intrigues them.

Leslie K. Maniotes, Rachel Lewis,  
and Stacey Fulton,  
p. 41

Perhaps the most  
transformative words an educator or  
parent can offer are also the simplest:  
“I see you. Let’s wonder together.”

Isabelle C. Hau,  
p. 16
